

QUALITY & CREDIBILITY

SRI BALAJEE

CONTROLSYSTEMS

Controlling tomorrow...today!

WHO WE ARE?

Control is what we all desire even in the smallest things in our personal lives. So isn't it natural that there is a keen desire to have extensive control on the industrial processes and systems that are seen all around? Obviously!

With this understanding, Sri Balajee Control Systems, works extensively to let you control your tomorrow, today.

Founded in 2010, under the enterprising mentorship of Mr. Pankaj More, to deliver end-to-end electrical power control solutions to the industry, Sri Balajee has been engaged extensively in manufacturing and supplying customized turnkey power control solutions for any industry.

While the presence may seem young, Sri Balajee has practiced excellence in its every initiative to create long-lasting solution as well as relations with successful product delivery.

Welcome to Sri Balajee...The World of Power Controls

WHAT WE THINK?

A team of dedicated and skilled professionals imbued with the values of trust, reliability and ethical business practices is what goes into every single product and system crafted at Sri Balajee Control Systems.

Our philosophy is reflected through well-thought mission & vision statements.

Vision

To have best quality engineering manufacturing of installation at specified time and in sync with the latest engineering technology.

Mission

To become a prominent player in engineering industries through continuous up gradation of knowledge and achieve a prominent place in installation industries through commitment of delivery regarding time and quality.

WHAT WE STAND FOR?

Mr. Pankaj More
CMD, Sri Balajee Controll Systems

Mrs. Ashha More
Director, Sri Balajee Controll Systems

Quality of Control is what Sri Balajee is proud of. To ensure the highest quality of everything that we conceptualize, manufacture and deliver, we have ensured some of the most important aspects of quality checks. These include:

- Ensuring highest standards of material used
- Maintaining excellence of workmanship
- Regular testing as per industrial parameters and ISO norms
- Quality audits by certified quality auditors

“What we deliver is as important as how we deliver it. As a combination of analyzing customer's requirements, designing best product and systems, supplying quality products and providing excellent service support, Sri Balajee Controll Systems is consistently delivering systems from concept to design, till commissioning and maintenance.”

WHAT WE DELIVER?

With a fine blend of infrastructure including metal fabrication, drilling, tapping, punching, cutting, bending & finishing as well as well-equipped high voltage testing to check for all continuity and ground faults, Sri Balajee delivers a diverse set of products and services.

Our Products

- HT Panels
- LT Panels
- Power Control Center
- Motor Control Center
- Relay Panels
- Synchronising Panels
- VFD Control Panel
- Feeder Pillar Control Panel
- Fire Fighting Panel
- AMF Panels
- APFC Panels
- ATS Starter Panels
- Busbar Ducting
- Control Desk
- Distribution Box

Our Services

With a wide scope of work covered under each service offered by us, we successfully deliver the highest quality of following services-

- Sugar Plan Electrical Distribution
- Co-generation
- Water Supply Scheme

MANUFACTURING PROCESS

WHOM WE SERVE?

Our aim is to become the most trusted name amongst the electrical power control systems provider across all segments of the industry. While we are working hard to achieve this name for ourselves, we are right now associated with the most ambitious and upcoming names in the industry, including Kirloskars. Our extensive client list includes:
